**CHIMINEAS:**

Today with families spending more leisure time at home, the outdoor room (backyard, patio, deck or porch) is becoming increasingly popular as a means of entertaining and relaxing. Make the most of your customers outdoor environment by furnishing them with items that will prolong their enjoyment of it.

Chimineas allow more time to be spent outside entertaining guests or enjoying chilly evenings in front of the fire. Not only will they become the centerpiece for any outdoor occasion, they will also turn your customers backyard into an outdoor room providing a cozy ambiance. Chimineas stretch the outdoor season from as early as March through as late as October and November. In more temperate climates, chimineas can be enjoyed year round.

As the market grows around people wanting a safe place in their backyard to entertain and enjoy the great outdoors, Deeco Consumer Products offers the most trendsetting designs for your customers. Our fire pits allow your customer to create a cozy and convenient outdoor retreat to be enjoyed with company or on ones own.

**FIRE PITS:**

We also offer fire pits tables that are decorative as well as functional. When not being used for a fire, the included insert converts your fire pit into a stand out cocktail, coffee or end-table.
